-
- **In applying for membership, I agree to observe and actively promote the objects of AGA as defined in the Association's Constitution (see blow).**
 - **I agree to comply with all codes and best practice processes required by AGA of its members.**
 - **I agree that the AGA can share my contact details with the International Geothermal Association through its affiliation agreement.**

The objects of the Association as set out in its Constitution are:

- to provide a forum for persons and bodies corporate involved or interested in geothermal energy;
- to hold, make available and provide information about all forms of geothermal energy, its benefits, risks usage and potential;
- to maintain the Australian geothermal energy sector's links with the Australian clean energy sector and international geothermal energy sector and with other organisations representing each of those sectors, including with the Clean Energy Council and ARENA and by affiliating with the International Geothermal Association;
- to conduct or manage support services including education and training; and
- to carry on, do or assist in all or any matters which the Association may deem fit for promoting or encouraging the development of, and science and technology relating to, geothermal energy.
